

Education

Santo Domingo, DR	Santo Domingo Institute of Technology	Nov. 2016 – Oct. 2020
<ul style="list-style-type: none">• Major: Systems Engineering, B.S.• Programming Coursework: Algorithms & Data Structures, Analysis and Design of Systems, Mobile Application Development.		

Employment

Front End Developer	Gmedia Dominicana	Nov. 2020 – Jan. 2022
<ul style="list-style-type: none">• Developed UI for over 20 projects and optimized their performance by implementing a clean approach.• Increased productivity by reducing a project's development duration while maintaining great functionality and responsive design.• <u>Leveraged knowledge</u> React Native, JavaScript, CSS to style components, Git, Opensource contribution, Serverless Architectures.		

Software Projects

Appointments App

- Developed an application for both iOS and Android that allows users to request an appointment, manage and visualize their appointment's requests and status interactively.
- Incorporated an Admin Dashboard to visualize and manage client requests.
- Utilized: JavaScript, React Native with Expo, React Native Calendars, React Native Datetime Picker, Firestore and Firebase Authentication Services.

Conversation Cards Game App

- Developed a cross-platform application that allows users to get access to a group of questions to create a conversation.
- Implemented a serverless architecture with Firebase.
- Applied realistic animations for better UX.
- Utilized: JavaScript, React Native with Expo, Cloud Storage with Firestore, Firebase Authentication Services, Reanimated 2 and Gesture Handler.

Skills

- Software: (*proficient*): JavaScript, HTML/CSS, Git, React, React Native (*familiar*): SQL, Python, C++. Languages: Spanish (*native*), English. Hobbies: Soccer, reading, gym and running.
